Course Description: (7.5 hours) Five Day Decorating – **COST: \$399.00**

This course will consist of various decorating elements that will assist in achieving optimum results in any decorating project. Teaching smart decorating techniques that will enhance any decorating lifestyle.

Choosing Paint Color for Your Home-

Learn specific methods for choosing paint color. This class will focus on what steps should be taken before considering the selection of paint and what significant factors should be noted in the task. This class will provide knowledge of how to obtain a harmonious space that flows throughout the home through color. (Incs. One hands on class project).

Decorating a Room from Scratch-

Learn how to create an emotional connection to decorating spaces... whether a new construction project or remodeling and existing space. This class will provide information on creating a game plan for properly placing and creating a furniture placement floor plan room layout.

Shopping Frugally-

Learn how to shop for accessories and furnishings for the home...for less! This class will provide tips of the trade on where to shop, what to buy, and where you would never think of going for a final look that costs much less than it ever imagined.

Accessorizing the Home-

Learn insider tips of the trade...what to use, where to find, and how to showcase to create breathtaking spaces. This class will provide knowledge on learning how to group accessories and artwork, create vignettes, dress mantels & book cases, and work with the small details of the room that create a whole new look- and assuring how to avoid the clutter of accessorizing!

Creative Window Treatments-

Learn to create beautiful window treatments without spending a lot of money and without breaking the bank. This class will also provide modification tips on how to enhance existing fabrics through the use of embellishments.
